

operated or controlled by them, and fixing a penalty of \$10 a day for failure to comply in each case.

Several members spoke in favor of the principles embodied in the bill. The members of the committee believe that a measure of that kind will be reported which will include dining cars and all palace cars, but the time will doubtless be extended to 1896, with a view to giving the companies time to adjust their business to the change.

#### Charges Against McCalla.

WASHINGTON, Aug. 2.—Captain Howison, commandant of Mare Island, and Commander H. B. McCalla, equipment officer at that yard have had a misunderstanding about the administration of the affairs of the yard, and it is said that the first named officer has preferred charges against his official associate. The matter is now before the Navy Department, but details will not be made public, at least for the present.

#### Will Try for America's Cup.

NEW YORK, August 2.—The Herald's Glasgow correspondent cables: "I hear a yacht is now being built on the Clyde to challenge for America's cup. The yacht is being built, according to my information, for a syndicate at the head of which is Lord Provost Bell, of Glasgow."

"Mr. Bell, it will be remembered, was the nominal owner of the Thistle, which, however, really belonged to a syndicate of Clyde yachtmen. The syndicate building the new boat is practically the same as that which ran the Thistle."

"Watson has designed a new yacht, and has guaranteed that she will beat the Britannia. She is being built by Fife of Forfar. For some reason or other my informant told me absolute secrecy was being preserved regarding the new boat."

#### Sentenced to Death.

LYONS, August 3.—At the conclusion of the trial of Santo Caserio, the murderer of President Carnot, in the assize court here today, the prisoner was sentenced to be executed by the guillotine. In spite of the prisoner's defiant attitude, his habitual smile disappeared from his face when the sentence of death was pronounced. M. du Brul, the prisoner's counsel, gave notice of appeal, and in so doing asked that the presiding Judge's charge to the jury at the opening of the session be entered on the records.

#### The Case of Ezeta.

WASHINGTON, August 3.—The United States war ship Bennington with General Ezeta on board, on her way from Alapalco to San Francisco, is proceeding under half power, owing to one of her engines being disabled, and is not expected to reach her destination earlier than August 10th. After thorough repairs at the Mare Island Navy Yard she will return to the coast of Central America.

#### Proposed New States.

WASHINGTON, August 3.—The New Mexico and Arizona admission bills were reported to the Senate today. In the case of New Mexico a constitutional convention is provided for, the delegates to which are to be chosen at an election to be held on the second Tuesday in June, 1895, and the convention is to meet on the second Tuesday in the following July.

#### To Get Rid of the Lepers.

SAN FRANCISCO, August 1.—Mayor Ellert has been trying to find a way to dispose of the San Francisco colony of lepers that exists out beyond the Mission, and the most satisfactory way that has occurred to him is to ship the entire colony to Molokai, the leper island of Hawaii.

Lepers from all over the Pacific Coast are under treatment and awaiting death at the San Francisco hospital, and the Mayor thinks it would be an excellent policy to in turn unload them on the Pacific islands, where they could live in greater freedom and possibly receive better treatment than they get at the local hospital, which everybody shuns.

But Hawaii may pass an exclusion act against American lepers on the ground that it has enough of its own. Lawyer Thomas B. Bishop of the firm of Garber, Boalt & Bishop was in Honolulu some time ago, and there he became acquainted with F. M. Hatch, a lawyer high in the councils of the Hawaiian Government. At the Mayor's request he wrote to Mr. Hatch about the removal of the lepers to Molokai, and the answer that he received is as follows:

"HONOLULU, June 22, 1894.

"DEAR MR. BISHOP:—Yours of the 5th instant in regard to the lepers at the Receiving Hospital was duly received.

"Please say to Mayor Ellert that the Government will give careful consideration to any proposition which he may choose to make to them upon this subject, but at the moment of writing I am at a loss to understand how the Executive could act in a matter of this nature without legislative action.

"The system of segregation has been faithfully carried out in recent years and gives hope of ultimate eradication of the disease. We have obtained appropriations for the support of lepers amounting to something over \$100,000 a year, which, considering the size of the community, is a pretty severe tax, but it has been met without a murmur from any quarter.

"I am inclined to think that objections of a sentimental nature would be made to a proposition for taking care of lepers from any other country. The idea certainly would not be a very pleasant one—that these islands were being turned into an international lazaretto. I hope, however, what I have said will not discourage Mr. Ellert from making a trip down here, because we would certainly be glad to see him, whatever might be the result in regard to this matter.

"Very truly yours,

"F. M. HATCH."

Mayor Ellert is determined to find something more definite about the feasibility of his plan, however, and if the project is not too strongly opposed at Honolulu he will try to have it carried into effect.

#### THE SYSTEM EXPLAINED.

#### Boycott on Boycott Will Act Until Starvation Steps In.

The president of the union had the affair all planned out and could see no possibility of failure.

"It is very simple," he said. You see, our first move will be to declare a strike against the company."

"But the company says it can stand it," protested the doubter.

"Of course, of course," replied the president, "but that is only the beginning. We will next declare a boycott on the company's goods."

"What if that doesn't fetch the company to terms?"

"Why, then we will order a strike in every concern that uses the company's goods."

"What else?"

"We will boycott the goods of every man who uses the company's goods."

"Anything more?"

"Certainly. We'll boycott every man who buys goods of the men who use the company's goods."

"And if that doesn't settle it?"

"Then we'll close up every man who trades with the men who buys goods of the men who use the company's goods."

"Is that your last card?"

"Certainly not. We'll smash the daylight out of every citizen who deals with the men who trade with the men who buy goods of the men who use the company's goods. And if that won't do it, we won't let union shops sell anything to the wives of the citizens who deal with the men who trade with the men who buy goods of the men who use the company's goods. Oh, we're bound to win this strike!"

"If there's no break in your system and you don't starve and you all hold together and the public doesn't kick," added the doubter.

The leaning coconut tree on the Waikiki road is settling more and more each day. It is very close to the telephone wires and will undoubtedly fall on them very soon.
